MVC Athletic Training Education Program Adds Clinical Site

Marshall, Mo. (March 19, 2010)— The Missouri Valley College Athletic Training Education Program (ATEP) signed a clinical site agreement with Dr. Tim Reid and the Reid Medical Clinic. Dr. Reid will be providing educational opportunities for the MVC athletic training students starting in the fall of 2010.

The Reid Medical Clinic, located in Carrolton, Mo., is the 12th clinical site of the Missouri Valley College Athletic Training Education Program.

Dr. Reid's specialties are family medicine and sports medicine.

Dr. Reid began his involvement with the MVC ATEP during the 2009 football season and continued during the 2010 wrestling season.

"I am happy that Dr. Reid decided to open his medical practice and allow our athletic training students to learn from him," Program Director Dr. Karla Bruntzel said. "The addition of another general medical and sports medicine site only strengthens our program and allows us to grow."

About Missouri Valley College

Missouri Valley College is a liberal arts college that provides educational, social and cultural experiences in a decidedly Christian environment. Established in 1889, MVC offers 30 majors and 7 pre-professional programs, and 15 sports and 25 varsity teams. The most popular majors include business and education, and the newest majors are nursing, graphic design, and hospitality and tourism management. The liberal arts heritage focuses on scholarship, critical thinking and academic excellence to prepare students to become members of a responsible citizenry. For more information, call (660) 831-4000 or visit www.moval.edu.
