

**Missouri Valley College**

*It's a Great Day to Be a Viking!*

## **Students Choosing to Waive Their Right to a Placement Test**

You can forgo the placement testing process by waiving your rights to said test and enrolling in MVC's developmental English and developmental Math courses. These courses are noncredit courses that do not count toward graduation yet are charged at the same rate as other MVC courses. However, for many students returning to school for the first time in many years, this often is the best choice. If you elect to waive your right to the placement test, please sign, date the following and send via fax, email or mail to the Admissions Office (see below for information).

***I elect to waive my right to placement testing and request I be enrolled in the developmental English and Math courses.***
