Missouri Valley College aims to provide reasonable accommodations to qualified students in accordance Section 504 of the Rehabilitation Act and Title II of the Americans with Disabilities Act to ensure that there will be no discrimination on the basis of disability. Accommodations are adjustments made for students with disabilities in order to allow them access to the same educational experiences as their peers.

Students should understand that it is their responsibility to self-identify their need(s) for accommodation and that they must provide current, comprehensive diagnosis of a specific disability or medical condition from a qualified professional in order to receive services. Documentation should include how the disability affects academic performance and specific recommendations for accommodations(s). Documentation should be provided in a timely manner prior to or early in the semester so that the requested accommodation can be considered and, if warranted, arranged.

A student can self-identify by contacting the Disabilities Coordinator: Jamie Gold-Naylor
