Course Description: A continuation of CS170. Emphasis on structured methodology of program design, development, testing, implementation, and documentation of common business oriented applications using COBOL. Includes coverage of sequential and random access files and processing techniques and development of programs and systems for batch and interactive environments.

Rationale: To provide the student with experience in developing more complicated business systems in order to prepare them for an entry-level position as a programmer.

Course Goals: To examine the value of both sequential and random processing, and determining which type of processing will best meet the needs of the business application. Develop structured code utilizing the principals of the system development life cycle.

Competencies:
1. Utilizing structured programming techniques when designing business systems.
2. Design and develop programs using single and multiple level tables.
3. Utilize the COBOL sort verb to arrange data
4. Utilize ISAM and VSAM index file processing.
5. Utilize subprogramming techniques.

Text: COBOL from Micro to Mainframe
Grauer, Villar, and Buss
Prentice Hall Publishing
Planed Schedule:

08/22/2005  Review Syllabi
Chapter 11 Introduction to Tables   Pages 301 – 330

08/24/2005  Program I Assigned

08/29/2005  Chapter 12 Table Lookups   Pages 331 - 362

09/02/2005  Program I Due

09/07/2005  Chapter 13 Multilevel Tables   Pages 363 – 402

09/14/2005  Program II Assigned

09/16/2005  Chapter 14 Sorting   Pages 403 – 434

09/23/2005  Program II Due

09/26/2005  Chapter 15 Control Breaks   Pages 435 – 474

09/28/2005  Program III Assigned

10/03/2005  Chapter 16 Subprograms   Pages 475 – 514

10/07/2005  Program III Due

10/12/2005  Chapter 17 Sequential File Maintenance   Pages 515 – 548

10/19/2005  Program IV Assigned

10/21/2005  Chapter 18 Indexed Files   Pages 549 – 582

10/28/2005  Program IV Due

10/31/2005  Chapter 19 The year 2000 Problem   Pages 583 – 602

11/09/2005  Chapter 20 Object Oriented COBOL
Program V Assigned

11/18/2005  Program V Due

11/30/2005  Final Program Assigned

12/10/2005  8:00 Final Exam
Final Program Due
Course Duration: 16 weeks

Grade Components: 5 Programming Projects/Exercise’s (100 Points Each) 500 Total Points 500

Grading Scale: 90% - A, 80% - B, 70% - C, 60% D, Below 60% - F

***** NO LATE WORK WILL BE ACCEPTED AND NO MISSED TEST CAN BE MADE UP. IF YOU ARE AWARE YOU WILL BE MISSING CLASS ON THE DAY A TEST IS GIVEN OR OR WHEN AN ASSIGNMENT IS DUE YOU NEED TO MAKE ARRANGEMENTS PRIOR TO THE TEST/DUE DATE.

Attendance Policy: Attendance is taken on a daily basis. There are no excused absences, regular attendance is mandatory if the student hopes to make normal progress. It is the responsibility of the student to make up any work that is missed, whatever the reason for the absence.

The MVC attendance policy is as follows: Any student missing more than 50% of class at any given point in time during the semester will be dropped from that class and a Withdrawal Fail grade will be assigned. If a student misses two consecutive weeks of class then they will be administratively withdrawn from class. If a student is administratively withdrawn after the sixth week of class then they will receive a WP or WF as a grade. If you intend to withdraw from a class please see your advisor, Do no count on this policy to automatically withdraw you from the class.

Extra Help: The student is encouraged to seek help whenever it is needed. I will be available during my posted office hours or by prior arrangement.
