

LPN to BSN Traditional

at Missouri Valley College School of Nursing

Nursing at MVC

Missouri Valley College's Bachelor of Science in Nursing (BSN) program prepares nurses through education and clinical experience to provide safe, evidence-based, and compassionate care to complex patients in diverse settings. Some of the clinical experiences include local community hospitals, tertiary care centers and other community health centers/agencies.

Degree in Nursing

The MVC nursing program requires students to complete two years of prerequisite and core courses, and two years of nursing course and clinical work. For nursing students enrolled at MVC, the application process is due by February 1st. All other student applications are due by April 1st. Students applying to the program are evaluated on their ACT, TEAS/Missouri LPN license, TOEFL score, GPA's and letters of reference. Twenty candidates are selected yearly to enter the traditional program.

The MVC nursing program adheres to standards and guidelines set forth by the Missouri State Board of Nursing (MSBoN) and the Commission on Collegiate Nursing Education (CCNE). The MVC nursing program has full approval from the MSBoN and is accredited by CCNE.

Missouri Valley College

LPN to BSN Face-to-Face Curriculum

LPN Program Transfer Credits

NU105 Intro to Nursing 1
€PY100 Psychology (Core III-B) 3
