

MISSOURI VALLEY COLLEGE IMMUNIZATION REQUIREMENTS FOR STUDENTS

IMPORTANT

Activate your Missouri Valley College email account!

MVC REQUIRED IMMUNIZATIONS

☐ MMR

☐ TDAP

☐ MCV4

MMR VACCINE

(MEASLES-MUMPS-RUBELLA)

2 Doses

1st dose- on or after
the 1st birthday

2nd dose- 28 days
after the first

TDAP VACCINE

(TETANUS-DIPHTHERIA-PERTUSSIS)

1 Dose

1 dose within the last
10 years

MCV4 VACCINE

(MENINGOCOCCAL ACWY)

1 Dose

Administration on or
after the 16th birthday

**Required for all students
residing on campus.
Off campus/commuting
students the MCV4 vaccine
is optional **

TUBERCULOSIS SCREENING -This questionnaire is in Med Proctor for all new students. Returning students will need to complete the tuberculosis screening from listed below each academic year.

Screening might indicate a need for TB testing (tuberculin skin test, blood test or chest x-ray)

Immunization records must be official documentation. This can include infant shot record book, records from a health care provider, local health department or pharmacy.

IMMUNIZATION EXEMPTION REQUEST

Students requesting medical or religious exemption for immunizations must reach out to the Student Health Nurses Office. Exemptions require a yearly physical examination completed by a physician. Physician must sign and stamp the form. For more details or to request an immunization exemption form email mvccampusnurse@moval.edu

MED PROCTOR

The MVC Nurses office uses an online service called Med+Proctor to manage students immunization records. MP makes it easy to track and verify that our students have the required vaccines before they can attend classes. Students will pay a one time fee of \$15.00 to Med Proctor before uploading their immunization documents. Students will use their Missouri Valley College email address to register for a Med+Proctor account. Students will have lifetime access to these records through Med Proctor.
