

INTERNATIONAL GRADUATE STUDENT STEPS TO BECOMING A *Viking!*

QR codes can either be scanned with a phone or be clicked directly to view the document electronically.

STEP 1

Complete The Inquiry Form

Submit the inquiry form to receive access to your student application portal.

STEP 2

Apply for Admission & Submit Required Documents

Log in to your student application portal, complete your application, and upload all required admission documents.

STEP 3

Admission, Enrollment & Form I-20

After you are accepted, the Admissions Office will send you your official Graduate Acceptance Letter. The International Office will then contact you with instructions to submit all required documents for your Form I-20 and F-1 student visa process, if needed.

STEP 4

F-1 Visa & Arrival Preparation

Once the International Admissions Office has reviewed and approved all required documents, you will be ready to receive your Form I-20.

Select the guide that matches your student type:

- **New F-1 Students** – For students entering the U.S. for the first time on an F-1 visa.
- **F-1 Transfer Students** – For students currently studying in the U.S. who will transfer their SEVIS record to Missouri Valley University.

Use the appropriate guide to learn about the I-20, F-1 visa, and arrival process.

As an international graduate student, you will work with two offices:

- 1. Admissions Office: reviews your graduate application and makes the admission decision for your chosen program.*
- 2. International Admissions Office: reviews international student requirements, financial documents, Form I-20, F-1 visa documentation, and immigration requirements.*
